**Background:**

The California Health in All Policies (HiAP) Task Force was created by Executive Order S-04-10 in 2010 to foster interagency collaboration to promote healthy, equitable, and environmentally sustainable communities. This work is based in the recognition that the health of Californians is impacted by the policies and practices of many sectors, and that environmental stewardship and health equity are closely intertwined. The HiAP Task Force is staffed through a collaborative relationship between the SGC, the California Department of Public Health (CDPH), and the Public Health Institute (PHI).
